Halloween — One Question Per Page

每页一问 · 没有送分题：每题要么要推理、要么没有唯一答案、要么锚定他自己 · 最后一列 = 书里怎么说（ 书里没给答案的会明说）

Page	Question（用英文问他）	考什么	书里的答案 / 提示
1. Cover + Contents	The Contents lists 12 parts, but the book is 16 pages. Which parts do you think need more than one page? Why?	结构	封面诗 + 目录。 书里没给答案；实际是 **Halloween Fun!**（诗占 2 页）
2. Halloween Fun! ①	The poem says “Halloween just can’t be beat.” Does that mean “you can’t hit it” or “nothing is better”? How can you tell?	推理	**nothing is better**（不能被打败 = 最棒）。押韵 treat / beat / eating
3. Halloween Fun! ②	The poem lists pumpkins, black cats, bats, ghosts, goblins. Why is black cat on the list, but not dog?	开放	书里只是列出，没解释。（黑猫与女巫的传说是背景，书里没写）
4. Trick-or-Treat	Candy corn was first made more than 100 years ago. If someone ate it when it was brand new, how old would they be today?	推理	书里：“more than 100 years ago”。 答案 > 100 岁 —— 要自己算
5. Costumes	The book asks: will you be silly or scary? Could one costume be both? What would it be?	锚定他	书里例子：**a shark / a circus clown / a ghost**。 没有唯一答案
6. Pumpkin Picking	The book calls a pumpkin a FRUIT. But PATCH means “land where fruits and vegetables grow”. So is a pumpkin a fruit or a vegetable?	推理	书里写 “**pumpkin fruit**”，patch 里同时有 fruits 和 vegetables。 书里没解释这个差别
7. Jack-o’-lanterns	In Ireland people carved turnips. In America people carve pumpkins. Why do you think they switched?	推理	书里没给答案（只说 Ireland 刻 turnip/beet/potato、America 刻 pumpkin）
8. Painting Pumpkins	Page 7 says “Ask an adult to carve it.” Page 8 says you can paint a face instead. Why might painting be better for YOU?	锚定他	刻要用刀（所以第 7 页要大人）；画只要颜料。 没有唯一答案
9. 6 Fun Facts	The world’s largest pumpkin had to be lifted by a tractor. Why a tractor, and not a person?	推理	书里：“had to be lifted **by a tractor**”。 理由书里没写（太重）
10. A Spooky Home	The book gives 4 ideas: fake spider webs / spooky music / black paper bats / a skeleton in the window. Pick one — where would YOU put it?	锚定他	书里 4 个点子（bushes / doorway / window / music）。 没有唯一答案
11. Pet Parade	The book says candy is NOT safe for pets, and pets should eat only treats made just for them. Why only their own treats?	推理	书里只说 not safe / only eat treats made just for them。原因书里没写
12. First Halloweens	People wore costumes and lit fires because they believed something. What did they believe?	推理	全书的因：**“They believed this would scare away ghosts.”**
13. Halloween Today	Halloween is a MIX. Which part of this book came from Ireland? Which came from Mexico?	结构	Ireland → jack-o’-lantern / turnip（p7）；Mexico → Day of the Dead（p14）
14. Day of the Dead	Ireland: fires to scare ghosts AWAY. Mexico: families honor the dead and decorate graves. Same week — why OPPOSITE?	开放	书里没说原因。 这是全卡最重要的一题 —— 没有唯一答案，听他怎么想
15. What in the World?	This page doesn’t tell you the answers. It gives HINTS and a WORD BANK. Why do it that way?	文本特征	书里：“Use the hints to **figure out** what’s in the pictures.” 让你自己猜 = 游戏
16. Picture Glossary	The book explains only 4 words: ancient / honor / tradition / patch. Why these — and not pumpkin or candy?	结构	书里没说。这 4 个是看不见的抽象词；pumpkin/candy 有图可看

怎么用：① 先让他读完那一页，再问那一页的题 —— 不要一次问 16 道 ② 一次 **2–3** 页就够 ③ 他答「不知道」完全可以 —— 那就一起回去看那一页找 ④ 不要纠正、不要追问为什么；他说完就往下走

只有 **3** 道一定要问：第 12 页（他们相信什么）· 第 14 页（为什么两个地方做法相反）· 第 6 页（南瓜是水果还是蔬菜）—— 这三道是这本书的骨头

题源：全书 16 页 OCR 逐页核对；每个问题的答案栏都标明「书里有」还是「书里没给」。 第 3 页的「黑猫 vs 狗」、第 7 页的「为什么换南瓜」、第 11 页的「为什么要专宠专食」、第 14 页的「为什么相反」—— 书里都没有答案，故意留成开放题。 第 6 页用了书里自己的内部不一致（pumpkin 叫 fruit，但 patch 里 fruits and vegetables 并列），不是我编的矛盾。
